PROJECTS

Cafe Monte Website (2023):

Designed and developed a visually appealing and user-friendly website for Cafe Monte, demonstrating expertise in front-end development.

Utilized HTML, CSS, and JavaScript to create an engaging and responsive user interface.

Collaborated closely with the client to ensure the website met their specific requirements.

Project Website: www.cafemonte.hu

Alfageneral UK Website (Ongoing):

Engaged in full-stack development for the Alfageneral UK project, demonstrating proficiency in managing complex web projects.

Awaiting final details such as pictures and additional information for the completed project.

The project showcases dedication to delivering comprehensive web solutions.

Project Website: www.alfageneral.co.uk

These projects reflect my ability to create appealing and functional websites while collaborating closely with clients to meet their specific needs. The ongoing Alfageneral UK project underscores my dedication to delivering comprehensive solutions in full-stack web development.

ACHIEVEMENTS

Successful Transition to Full-Stack Web Development: Transitioned from a background in the chemical industry to the field of Full-Stack Web Development, demonstrating adaptability and a commitment to acquiring new skills.

Web Design and Development: Designed and developed the website for Cafe Monte, showcasing expertise in front-end development and creative design. The project resulted in a visually appealing and user-friendly website (www.cafemonte.hu).

Full-Stack Development: Engaged in full-stack development for Alfageneral UK, showcasing the ability to manage complex web projects. This ongoing project (www.alfageneral.co.uk) reflects my dedication to delivering comprehensive web solutions.

Continuous Learning: Acquired a range of licenses and certifications in programming and web development, including Python, Java, HTML5, CSS3, PHP, HTML/CSS, and JavaScript through Sololearn.

Technical Skills: Proficient in a variety of technical skills, including Cascading Style Sheets (CSS), HTML5, JavaScript, TypeScript, Git, HTML, Node.js, Laravel, GitHub, and Bootstrap, reflecting a well-rounded skill set in the field of web development.
